

2025-2026 Impact Submission

In the 2025-2026 season, YETI Robotics continued to grow its impact across the Charlotte community and beyond. The team dedicated over 2,000 hours to mentoring four veteran FIRST teams and launched new FLL, FTC, and FRC teams - supporting around 150+ students through sponsorship and mentorship. YETI also expanded its STEM outreach to 100+ students across five Title 1 schools in Charlotte through their robotics courses. On the competition side, the team ranked #6 in the FIRST North Carolina district and won two events as Alliance 1 Captain, while also earning the District Impact Award. Their newest initiative, Go Green With YETI, promoted environmental sustainability within the team and across FIRST NC, and their Open Alliance presence reached 3,000+ people across social media and Chief Delphi.

Below you'll find all the materials submitted as part of YETI Robotics' 2025-2026 Impact Award submission, including our essay, executive summary, and any supporting documents and videos.
